

Photo Analysis Guidelines

- Examine the photograph quickly and read the caption. Describe the photo.
- Divide the photograph into quadrants and study each section individually. What details--such as people, objects, activities--do you notice?
- What other information--such as time period, location, season, reason photo was taken--can you gather from the photo?
- How would you revise your first description of the photo using the information noted in the next two steps?
- What questions do you have about the photograph that you would like answered?
